London

**MOVEMBER AT
THE CAVENDISH HOTEL**

The Cavendish Hotel in Mayfair is supporting The Prostate Cancer Charity by participating in the charity's annual "Movember" fundraising event. The male front of house staff at the hotel have grown moustaches for the month of November, collecting sponsorship and donations for their efforts.

The staff raised £2,350 pounds in total and the hotel has agreed to match this, making a total of £4,700 being donated to the charity.

Originating in Australia in 2004, Movember has raised £12 million worldwide and significantly increased awareness of prostate cancer. The money raised will go directly The Prostate Cancer Charity to help the organisation continue its hard work in research, providing support for victims and increasing awareness of the disease.
